Madhav Nagar,Katni

SUMMARY

I am a Computer Science B.Tech student with a strong grasp of various programming languages and technologies. My skills encompass Python for data analysis, C++ for efficient solutions, JavaScript and Node.js for dynamic web applications, MySQL for relational databases, Express for API development, MongoDB for NoSQL databases, and C for foundational programming. My comprehensive understanding allows me to approach projects with versatility and create effective solutions across different domains.

EDUCATION

Jaypee University of Engineering And Technology

Bachelor's in Technology,Computer Science
2022-Present

St. Paul Senior Secondary School

Senior Secondary Execution
2020 – 2022

SKILLS

- **Programming Languages:** Proficient in C++, C, JavaScript, and Python.
- **Web Development:** Experience with Express and Node.js for building dynamic web applications.
- **REST API Development:** Skilled in creating robust and scalable REST APIs.
- **Database Management:** Familiar with SQL for relational databases and MongoDB for NoSQL databases.

PROFESSIONAL EXPERIENCE

Web Developer Intern

OCTANET | JUNE 2023-JULY 2023

Engaged in HTML, CSS, and various frameworks to craft compelling web solutions. Translated design concepts into responsive interfaces, enhancing user experiences across projects.
